A FAIR! A FAIR!!—In accordance with a custom that has long prevailed in England, the citizens of St. Joseph county are invited to a FAIR at White Pigeon, on the 16th of November next. It may be proper to state that the design of a Fair is to facilitate trade of all kinds. Those who attend bring stock or any thing else they have to sell or exchange for other property; or, if they bring nothing they may wish to purchase of those who do bring something. It will be seen at once that it brings together, at one place, such commodities as are for sale in the country, as well as all the buyers and acllers. It is among country people, what an exchange is among merchants and brokers in cities.

of its superior efficacy. The subjoined are a mong the communications in the hands of the proprietor:

In calling attention to the medical virtues of this celebrated plant, I would advert to the fact familiar with every physicism, that a numerous class of diseases arise from that impure state of the blood, which this active remedial agent is so efficacious in purifying. The great importance attached by medical practitioners to the properties of the Sursaparille has engaged the attention of chemists, as to the mode of preparation in which its virtues can be most advantageously combined. Their expariments have resulted in the discovery that the Chemical Courous Flour Expact is decidedly superior to any other form in which it can be used. Since the introduction of the Fluid Extract, it has grown into rapid and extensive use, and its reputation is constantly increasing. We consider it one of the most valuable articles in the Matria Medica, and find a material advantage in the standard preparation of uniform strength which is obtained by the Fluid Extract. Its superiority over the Decections and Syruna sometimes made use of, is strikingly apparent. It obviates the necessity of preparing fresh decections every day; and does not surfait and nauscate the stomach with the large proportion of sugar which has to be taken with each dose of the syrup, and which renders it incapable of holding much of the pure extractive matter in solution.—One bottle of the Fluid Extract is fully equal to a gallon of the syrup, or the decection, as usually prepared.

The virtues of this valuable medicine cannot The virtues of this valuable medicine cannot be too extensively known, as there is scarcely an individual who would not be benefitted by its use. The uniform testimeny of medical men in its favor, and the great success which has attended its introduction, both in hospituls and private practice, is a convincing proof of its value, and of its superiority over other preparations of the Sersaparilla.

tts superiority over other preparations of the Sersaparilla. MEDICUS. Mr. C. C. Baisrot.—Dear Sir: Please send me four dozen bottles Bailey's Compound Fluid Extract of Sarsaparilla.

I cannot but express my highest sense of gratification in the result this excellent preparation has had in the cure of Cutansons Diseases. In every case which has come under my practice, it has had the most complete success. Not one—even the most obstinate and long standing—but has received a permanent cure from this very excellent compound. In a section of country like this, where the principal diseases arise from a vi. tiated state of the blood, I think the introduction of your preparation will be of the most eminout.
